PROFESSIONAL SUMMARY

I have completed my studies in Computer Science Engineering with key strengths in programming, software development, and problem-solving. My knowledge of Data Science, including deep learning and data analysis, strengthens my technical capabilities. I thrive in collaborative environments, transforming ideas into real-world solutions. Adaptable and focused, I view challenges as opportunities to learn and stay ahead in technology.

TECHNICAL SKILLS

Hard Skills: HTML, CSS, Python, Data Science, Visual Literacy, Research Analysis.

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability, Quick Learning.

PROJECTS

Social Media Website   *April 2023*
Developed a social media platform encouraging group learning and topic-based conversations. Enabled members to exchange thoughts and ideas about upcoming developments and technologies.

Hospital Management with Brain Tumor Detection   *May 2024*
Created a hospital management system with specialized login portals for patients and doctors. Integrated features for managing treatment plans, brain tumor detection records, and visit histories.

INTERNSHIPS

In-plant Training - iTrobes Technologies Pvt. Ltd., Marthandam.   *July 2022*

Programming Fundamentals - Srishti Innovations, Technopark, Trivandrum.   *July 2023*

EXPERIENCE

Currently working as a Data Engineer at **Owlytics (Incubenation)**, Bengaluru.   *2025*

Admission counsellor at with **Aspiraquest (Study in Bengaluru)**, Bengaluru.   *2025*

Assistant Technical Writer at **Rpinnacle Research Solutions**, Thuckalay.   *2024 – 2025*

EDUCATION

BE - Computer Science and Engineering

Bethlahem Institute of Engineering, Karungal, Kanyakumari.   *2020 – 2024*
